Serving:
Alaska
Idaho
Montana
Oregon
Utah
Washington
Wyoming
Our 12 regional and 2 national TRCs are expertly staffed. We’ve come together under one consortium to forefront the advancement and accessibility of telehealth with a focus in rural healthcare. As a consortium, we are committed to helping your organization/practice advance telehealth education, overcome barriers, and provide you with the adequate resources.
The Telehealth Resource Centers are funded through the Office for the Advancement of Telehealth, Federal Office of Rural Health Policy, Health Resources and Services Administration (HRSA), DHHS

Telehealth Programs

The Office for the Advancement of Telehealth (OAT) promotes the use of telehealth technologies for health care delivery, education, and health information services. Telehealth is especially critical in rural and other remote areas that lack sufficient health care services, including specialty care.

The range and use of telehealth services have expanded over the past decades, along with the role of technology in improving and coordinating care. Traditional models of telehealth involve care delivered to a patient at an originating (or spoke) site from a specialist working at a distant (or hub) site. A telehealth network consists of a series of originating sites receiving services from a collaborating distant site.
Thank you
To our fabulous MODERATORS
And expert PRESENTERS!
Thank you

Conference & Event Management
Meghan Webb
Amy Searles
Carrie Grant

Utah Education & Telehealth Network
