

Hello Northwest Regional, Northwest Region:

2025 Healthcare AI Boot Camp

Harness AI's Potential, Drive Change, Improve Patient Outcomes

Virtual and In-Person Sessions

Join us for the [2025 Healthcare AI Boot Camp](#), a national initiative led by a group of federally funded Telehealth Resource Centers from across the country, a Telehealth Center of Excellence, and additional regional partners. This foundational training is designed to equip participants with a clear understanding of core AI concepts and their practical applications in healthcare, setting the stage for engagement with real-world challenges.

The series features the following sessions:

- June 9 (on-demand) — 5-minute sessions
- June 25 (virtual) — Foundations: What is AI?
- July 23 (virtual) — AI Applications in Healthcare
- August 12 (hybrid) — Diving Deeper for Individual Mastery

This pivotal series brings together clinicians, operational leaders, technologists, and pioneering voices in healthcare AI to explore key concepts, develop practical skills, and align innovations with the urgent needs of our healthcare system. Participants will leave with the knowledge and confidence to launch or advance their AI journey, ready to drive meaningful impact in their organizations and communities.

Start the journey toward AI readiness today!

Coming Soon: The 2025 NRTRC Telehealth Survey

We're getting ready to launch the Sixth Annual NRTRC Telehealth Survey — and we want your input!

This important survey helps us track the evolving landscape of telehealth across the Northwest region and tailor support for those implementing and sustaining virtual care services.

Watch your inbox on July 14! Look for an email from Qualtrics for your link to the 2025 survey. The survey should take no more than 5 minutes and is intended for

individuals and organizations that currently deliver or plan to implement telehealth services.

Thank you in advance for your time and valuable input!

Curious about past insights? [Click here](#) to view previous survey results.
