

Hectic Holiday Happenings

Finishing one year, starting another

The Holiday Season always seems to have its fair share of distractions and sidetracks. This one is no different. Since returning from the national mHealth Conference last month we've been trying to accomplish a number of different things. We're finalizing plans for the March Conference (be sure to join us). Planning for educational tracks and plenary session speakers are taking center stage right now. And, we're working on the Exhibit Hall, too. At the same time we're putting together our webinar schedule for 2016. We'd like to offer webinars that are of interest and value to our members without having a lot of repetition of either presenters or topics. Along with that, it's time to put together our newsletter and find some time to enjoy the Holiday Season. It's hectic, but fun hectic. If you've got any ideas for webinars you'd like to see or topics you'd like covered in a future newsletter, let me know and I'll see what I can do.
